

Extend voting intentions to record whether respondents are members of the Labour Party

Mark Reardon, 19/7/18

One day's work

- [] Set up new vote in voting intentions and supply exact URLs for inclusion in emails from NationBuilder.
- [] Add ability to remove NB tags based on choice.
- [] Change redirect for malformed URLs from donate2 page to Momentum home page.
- [] Add optional ability to redirect depending on choice rather than just one for any choice in a vote as at present.
- [] Add 'thanks for letting us know' page to My Momentum.
- [] Someone in Momentum implements the pages that the choices will eventually redirect to and lets me know when they're done so I can change the per-choice redirects.
